

Thoughts on the Mission of **The Trumbull Land Trust**

The Trumbull Land Trust strives to:

Protect and conserve the land, air and water of Trumbull, and everywhere.

We will accomplish our goals by:

Increasing the citizens' desire and ability to live in an ecologically sound manner within their own home, yard, town, state and world.

Our methods include:

Bringing citizens to a closer understanding of nature and their inter-relatedness with all of nature.

Focusing citizens' attention on environmental problems and their solutions.

Pursuing a public policy that protects and conserves the land, air and water around us.

Acquiring, through easements and donations, environmentally significant land parcels to preserve these areas as permanent open spaces.

Sponsoring various programs designed to bring all citizens together in common support of our ecological goals:

Discovery Walks

Children's Discover Series

Pequonnock River Greenway

Trumbull Greenspace

Environmental Seminars

Working with other public and private organizations to accomplish our stated goals.

The Trumbull Land Trust is a non-profit, tax exempt corporation. This all-volunteer organization is open to everyone. If you would like more information concerning membership or participation in our programs, please write to:
